1) The congregation is now renting a place, by purchasing this building, will give the opportunity to serve the Lord in all evangelical activities without limits.

2) There is no publishing house for Arab believers in Israel. This is a very important project that can help all the Christian movement here.

3) We think it's important for youth to know other believers in foreign countries. This will encourage and help them to be steadfast in the Lord.

4) The economic situation in Israel is very difficult. Bible students need financial support in Israel.
